Our strong expertise at understanding customer needs and mapping them against wide range of superior products, gives us a comprehensive edge in Qatar market.

We, as an organization is specialized in the supply of building and landscaping material such as ceramic tiles and porcelain tiles ,sanitary wares and washroom accessories, emergency fixtures, manhole covers, HPL panels, lockers, cubicles, raised access flooring, décor stones. Along with sourcing the products from world renowned manufacturers in USA, UK, Italy, Spain, Portugal and Turkey, we ensure that the products that we propose are ecologically nonhazardous.

Our Vision

“Our vision at Highrise Qatar is to be the catalyst in transforming the tiles and sanitary ware industry toward a sustainable and eco-conscious future. We envision ourselves as pioneers, who relentlessly keep innovating, and provide environmentally-friendly solutions that reduce our carbon footprint and promote sustainability across all aspects of our operations. Through our wide range of products that incorporate recycled materials and eco-friendly manufacturing processes, we aim to inspire and empower others to make environmentally responsible choices for their projects.

Leading by example, we aspire to set new benchmarks for sustainability and become the trusted partner recognized for exceptional products and a commitment to preserving our planet for future generations”

Mr. Shaji N Nair
Managing Director

Our Mission

“At Highrise Qatar, our mission is to be the industry leader in providing top-quality tiles, ceramics, and sanitary ware while prioritizing sustainability. We are dedicated to offering a comprehensive range of products that not only enhance the aesthetic appeal of living spaces but also contribute to greener future. We are committed to delivering superior customer service to our clients and fostering long-term partnerships built in trust and integrity. By constantly innovating and staying abreast of industry advancements, we strive to be the go-to choice for architects, designers, consultants, contractors, and homeowners who value sustainability without compromising on style and functionality.

- Mr. Ali Hemaïd M. A Al Shahwani
Sponsor, Highrise Qatar

Our TEAM

At the heart of our organization beats a collective commitment to excellence that permeates every facet of our operations. Our team, a synergy of seasoned professionals, brings forth a wealth of experiential knowledge garnered from years of immersion in the industry. Guided by the twin pillars of integrity and accountability, we conscientiously tailor our services to meet the unique requirements of our customers.

We understand that true satisfaction arises not just from meeting expectations but exceeding them. Hence, we approach our work with diligence, ensuring that our solutions not only fulfil immediate needs but also anticipate future challenges. Our dedication to transparency and responsibility forms the cornerstone of our interactions, fostering trust and lasting relationships. We take pride in not just delivering services but crafting comprehensive solutions that resonate with the distinct needs of our clientele.

In this ever-evolving landscape, we embrace innovation and continuous improvement, staying at the forefront of industry trends. As a result, our clients can rely on us not just as providers but as partners invested in their success.

CERAMIC & PORCELAIN TILES

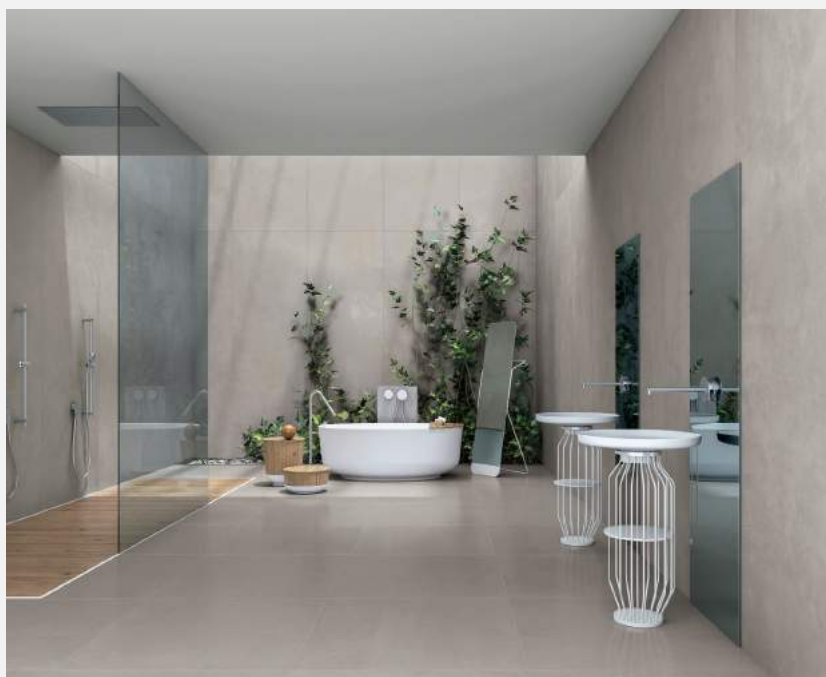

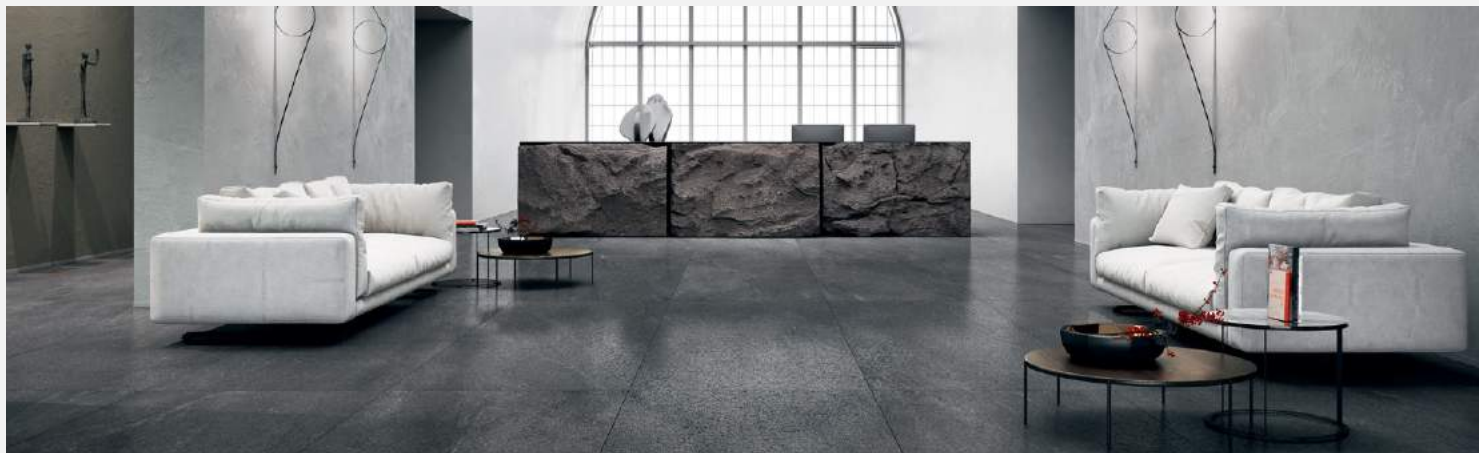

Atlas Concorde

Atlas Concorde is a benchmark player in the entire ceramic tile industry and one of the most important and stable companies worldwide with production facilities in Italy, Russia, USA and branches in 120 countries.

Its mission is to provide interior designers, architects, and the most demanding customers with ceramic solutions suitable for every destination of use, ensuring aesthetic appeal and excellent technical performances.

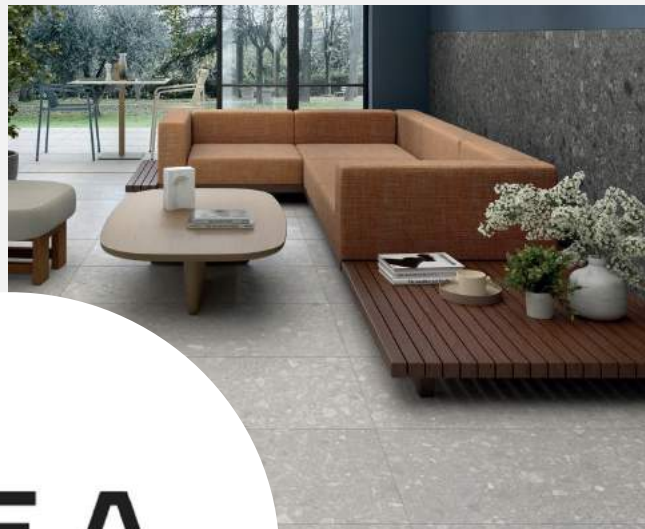

Cotto d' Este

Their mission is based on the values of Italian beauty: taste, elegance, and style that bring the highest levels of excellence to our everyday lives. An innate passion for all that is art and culture is combined with a consolidated and deep-rooted tradition in ceramics, involving continuous research supported by innovation and technology, to offer unique products to the world, which can meet any requirement of contemporary architecture.

Lea Ceramiche

Lea Ceramiche has always stood out from the crowd; by innovating: with products with a clear personality and remarkable technical qualities, pure ceramic material originating from in-depth research and cutting-edge production technologies.

And with the collaboration of the most respected international designers who are also able to exalt the character and the qualities of its collections, which is used in prestigious projects and installations all over the world.

Paradyz

Ceramika Paradyż is the leader and the largest ceramic tile manufacturer in Poland. They driven design creating innovative products with unique design and supreme quality and delivering them to customers in more than 50 countries.

The company also has won the most prestigious awards in design and economy. For 17 years, it has played the reputable role of the Patron of Łódź Design Festival, the greatest event dedicated to design in this part of Europe.

TUBADZIN

Tubadzin

Tubadzin Group is one of the leading Polish manufacturers of ceramic tiles, a leader in innovation since its formation, it has been consistently developing its product offer, skillfully adapting it to the needs of various customer groups.

Each product of the company meets the most stringent European standards. The extensive assortment of the Tubadzin Group is currently made up of four brands: Tubadzin, Domino, Korzilius and Arte. Each of them introduces its own, separate lines of products and collections.

Termal Seramik

Founded in Söğüt, Bilecik in 1995 to create value for customers with different needs and demands. Termal Seramik has a capacity of 24.000.000 m2 per year.

Termal Seramik focuses on combining technological advances with human craftsmanship to produce tiles that are aesthetically pleasing as well as ecologically sustainable. Termal Seramik ensures quality production under a strict Total Quality Assurance System with domestic and international certifications.

Argenta

Argenta Ceramica began a young, dynamic business adventure with the enthusiasm to develop a different ceramic concept to the existing ones. Gradually the brand developed its own identity and started positioning itself worldwide in a prominent position in the current ceramic scenario.

The Friendly tile concept gave birth to a long-standing project.

Vitacer

Specializing in the manufacture and sale of ceramic wall and floor tiles. It was created to develop a solid ever-increasing range of cutting-edge products, while also guaranteeing unbeatable quality and service. Vitacer has pioneered the sale of 20mm-thick outdoor ceramic tiles with a safe non-slip grip, high bending strength, and high breaking load, in addition to its Smooth & Grip porcelain tiles, which combines a smooth feel & non-slip grip

SANITARYWARES AND MIXERS

House of ROHL

House of Rohl is a portfolio of luxury decorative plumbing brands curated from around the world allowing you to tell your own story of a life well-crafted; Riobel, Perrin & Rowe, Shaws, Victoria + Albert and ROHL. Each has a unique story that connects craft, place of origin, and specialized techniques that deliver timeless design. Together they bring a richness of heritage, innovation, and design to your kitchen and bath.

Guglielmi

Commitment, passion, dedication have been their values, which has always been committed to the development and realization of products for bathrooms, showers, kitchens, and outdoor spaces. The created models lead us into the Guglielmi universe, made up of iconic shapes, and sophisticated surfaces, and also unusual color combinations for the pursuit of wellness. They do manufacture products equipped with technologies aimed at reducing the water consumption and complying it with strict international rules, saving energy, and protecting the environment in daily use.

Sanindusa

Sanindusa has been recognized for its high-quality bathroom and kitchen products. The focus was on innovation and customer's needs, earning customer trust for transparency and precision. The group consists of 5 production units and has 100% Portuguese roots.

The bold and innovative design is the common denominator of our creations, and the ecological concerns are combined into a range of products.

 **SCARABEO®**

Scarabeo

Scarabeo Ceramiche manufactures its products by combining ancient ceramic processing techniques dating to the pre-Roman era with high-tech machinery, allowing it to transform ceramic into genuine and highly original works of art that are also functional. Together with zero-impact production, solar power systems at our plants, reduction of wasted energy, and recycling of waste, they have adopted working hours that respect the body clock of employees, to help them lead a healthy lifestyle..

ECA Serel

Since its conception, ECA has grown to a full-fledged leader in the supply of sanitary wares and washroom accessories with a global presence. The values derived from the family ensure that integrity, quality, and awareness are maintained when it comes to the products and services provided. Having a rigorous, innovative, and leading approach to its product development activities, ECA SEREL protects all details of user needs in its product development works and gives to life unique designs.

Pentagono

From the design to the production, the aim of the brand is to guarantee the best quality and safety. Careful choice of the raw materials, processing realized with automatic robotized working centers at high precision, and regular checking of quality to get finishes and products of high level. Modern ranges, classic and old-age, catalog encloses a complete selection of shapes and applications that can interior every bath and kitchen all over the world. Global effort towards developing products and services that reflect social and ecological responsibility.

WASHROOM ACCESSORIES

Bradley

Bradley is considered to be one of the leading companies providing the most complete and advanced commercial washrooms, and comprehensive solutions for emergency safety and industrial applications. Bradley Corporation made a name for itself by making the best product in the world. The quality in terms of product innovation and service is unmatched to date. Product innovation, impeccable quality, and valued customer service are the foundations that drive the company's growth and success.

GLASS AND PORCELAIN MOSAICS

Etruria

Born from a dream of giving new shape and new life to that romanticism and creativity that in the early 1900s was the genesis of design as we know it today. The strong personality of the diamond tile has allowed ETRURIA design to evolve the ceramic element towards the future with increasingly decorative collections, in an original expression of Made in Italy design capable of creating added value to the covering of spaces and transforming the furniture. in a creative and personalized experience.

M +

They Aim to investigate contemporary surfaces in an empirical and adventurous way. M+ is committed to creating surfaces suited for maintaining their contemporary quality in a new way of understanding the very concept of cladding, overcoming the limits of decoration and image to become a creative tool disposable for architects and interior designers.

The M+ Mosaics division collects all the original history of the brand, linked to glass mosaic, in its different finishes, patterns, and chromatic variations.

**GRUPPO
BARDELLI**

Gruppo Bardelli

Since 1960, the Italian industrial group led by the Bardelli family, now in its third generation, It has indeed exploited its profound Ceramic Know-How to evolve and adapt to the ceramic and porcelain tile market, continuously innovating both on an industrial and social and human level.

The brand produces and markets Made in Italy & high-quality ceramic & Porcelain Stoneware tiles throughout the world.

TERRAZZO

Agglotech

They are Europe's largest producer of terrazzo. Their mission is to promote the use of marble-cement agglomerates as versatile and natural cladding material that provides excellent levels of performance. The design of Venetian terrazzo sets trends, and a vast range of colors ensures that customers get the material best suited to specific needs. Being cut from slabs that have, in turn, been cut from solid blocks of terrazzo, all our marble-cement agglomerates can be personalized and made specifically to meet your specific design needs.

Our **WORK**

Over the span of past decade, Highrise has been successful in earning a respectable identity in the architectural field in Qatar. We have been honoured to be a part of iconic projects in Qatar in the likes of 2022 FIFA stadiums, Qatar Metro Rail, Qatar University Colleges, Ministry of Interior projects, ASHGHAL projects and Qatar Armed Forces buildings.

Since the conception, Highrise has believed in sustainable development and to this day strive to provide products and solutions that are in lieu of this principle. We promote products that are environmentally sustainable.
